

Satonda Island Indonesia

Located off the north coast of Sumbawa Island (east of Bali, Indonesia), this amazing island is surrounded by beautiful coral reefs teeming with underwater life. This inhabited island is recognized as one of Indonesia National Natural Park with only 49-hectare buildable area. The blue lagoon in the center contains rare species surrounded by a very unique natural ecosystem. Satonda is full of myths and stories which attracted many prominent personalities in the past (Lady Diana Princess of Wales and Bill Gates).

At an unusually large size, Satonda makes it a perfect candidate for eco-friendly, high-end luxury resort. The island is very well-elevated with excellent sandy beaches. Satonda is a rare 25/25/25-year leasehold opportunity. The island is located about 45 minutes by seaplane from Bali. There is also an airport on the nearby Sumbawa Island offering daily flight to Bali and by 2009 Lombok International Airport will be operating nearby.
